"I highly recommend Lars Holmgren. I worked with Lars on John Carter(2012) and James Bond: Skyfall (2012) at Double negative as a look dev/lighting TD in same sequence. He is very reliable who always deliver work before the deadline with absolutely highest quality. After John carter, he started initial development for the Skyfall not only look dev and lighting, but also modeling and texturing on main asset. He is very helpful sharing his knowledge to support other team member through out the project.
